SQUADRON GETS FLAG . . . Congressman Cecil R. King (L) shown above presenting Flag which has flown over the nation's Capitol to Lee Larsen, Senior Crew Chief (Center) and Forrest G. Sedgwick, Senior Advisor of the newly organized Air Explorer Scout Squadron #377A sponsored by the Torrance Chamber of Commerce. Sedgwick, who started the troop, said it is the first Air Explorer Squadron in the area and that it will meet at the Torrance Municipal Airport, according to the Torrance Chamber of Commerce announcement of the presentation.

Area's First Air Explorer Unit Off to Flying Start

The area's first Air Explorer Scout Unit is off to a tremendous start, according to President R. S. Pyle of the sponsoring Torrance Chamber of Commerce. Pyle said Air Explorer Scout Squadron 377A is most fortunate to have Forrest G. Sedgwick, 445 Via Colusa, as the Squadron Advisor. Sedgwick, affectionately known as "Woody" to the many boys he's tutored in his many years as a scout executive, is a former Eagle Scout. He is employed by General Electric Company. The Squadron was honored this week by Congressman

Cecil R. King who presented Senior Crew Chief Lee Larsen, 205 Via Colusa, with an American Flag that just recently flew over the nation's capitol in Washington, D.C. Larsen, a South Torrance High School Student, is also an Eagle Scout, as are the majority of members of the new Squadron. Congressman King urged all future Air Force Academy aspirants to take all the math and foreign languages they can get in high school. King added that foreign languages are often not considered as vital as they actually are.

Chamber President Urges 'Yes' on Proposition 1

A Torrance business leader today called for approval of Proposition 1 on the November ballot and an end to "petty sniping" at the State Water Bond Act. President R. S. Pyle, Chamber of Commerce President, declared today that "only the uninformed or irresponsible" would oppose Proposition 1 in view of the serious water needs of the State.

"HERE IN Southern California," said Pyle, "we have offered unequalled business opportunity to persons and firms seeking sound investments. From these have come well paid, secure jobs. All of us have benefited from this continual growth. Water is the very heart of this growth. Failure to bring surplus northern water to our deficit areas will bring our business growth to a grinding halt."

"California is not short of water nor is it likely to be," Pyle stated.

"We are simply in the unfortunate situation of having 70 per cent of our water in the north and 77 per cent of our usage or need in the south.

"SHALL California continue to use only a bare fourth of its water, pouring the remainder into the ocean from northern rivers? If we are that foolish, we will force a sharp reduction in the 500,000 new residents we have been welcoming each year. They are the major factor in our growth and business vitality."
